

Impact Fee Adjustment Takes Effect August 1, 2018

In 2004, the San Gabriel City Council adopted Ordinance No. 533-C.S. which implemented fees on new construction to help offset the impacts created by new development on city facilities and infrastructure. The City collects **development impact fees**¹ for police and fire facilities, traffic impact, sanitary sewer, and open space. Per Resolution 03-13, these fees are adjusted annually to take into account construction cost changes which occur during the year.

Effective August 1, 2018, impact fees will increase by 3.0% based on the Engineering News-Record Construction Cost Index.² The new fees are shown in the table below:
