

CLASSIFICATION SPECIFICATION SENIOR CIVIL ENGINEER

JOB SUMMARY:

Under general supervision of the Principal Civil Engineer, the Senior Civil Engineer develops, coordinates, and implements capital improvement/public works projects; assists with a variety of engineering projects including the preparation of plans and specifications; reviews major land development projects; and performs other related duties as assigned.

CLASS CHARACTERISTICS:

The Senior Civil Engineer completes a variety of specialized and responsible technical assignments in support of the Engineering Division. This classification serves as a project lead and may provide indirect supervision to engineering staff as appropriate. This class differs from a Principal Civil Engineer due to the level of experience required, complexity of work performed, and ability to make decisions within established guidelines.

EXAMPLES OF DUTIES:

Duties may include, but are not limited to, the following:

- Performs difficult engineering work including design, research, analysis, and evaluations; reviews engineering plans, specifications, designs, and cost estimates; evaluates compliance with laws, ordinances, and acceptable engineering standards and recommends corrections or improvements as directed; sets requirements for a wide variety of construction and maintenance projects including easements, legal descriptions, plan checks, construction inspections, and materials testing; and performs traffic engineering and transportation planning activities and studies.
- Assists the Principal Civil Engineer with managing capital improvement programs and projects; prepares right of way plans, acquisition, and environmental documents and reports; works with other City departments and divisions to identify and prioritize needs related to engineering projects; and provides engineering support and guidance to inspection staff.
- Performs entitlement reviews of tentative subdivision and other maps, drawings, conceptual plans, reports, and studies for major land development projects and prepares conditions of approval, impact fee estimates, and city requirements for those projects.
- Attends and participates in professional group meetings; prepares staff reports; attends and makes presentations to the City Council, boards, committees, and commissions as directed; prepares grant applications for project funding from various governmental agencies; and maintains administrative and engineering records.
- Develops and maintains effective working relationships with contractors, vendors, outside agencies, the public, and City staff; coordinates work with other City departments, outside

agencies, contractors, and consultants; and provides engineering services and consultation to a variety of field and office personnel.

- Performs other related duties as assigned.

MINIMUM QUALIFICATIONS:

Knowledge of:

- Considerable knowledge of the principles and practices of civil engineering design and construction including relevant federal, state, and local legislation relating to engineering and the environment; and principles and techniques for reviewing designs, plans, specifications, estimates, reports, and recommendations related to public works projects.
- Correct English usage, spelling, grammar, and punctuation; business letter writing and other document preparation; and modern office methods, procedures, and equipment including the use of a computer, copier, facsimile machine, scanners, calculator, and various computer applications and software packages.
- Principles of fiscal, statistical, and administrative research and report preparation; records management principles and procedures including record keeping and filing principles and practices; methods and techniques of proper phone etiquette; and customer service and public relations methods and techniques.

Skills/Abilities:

- Correctly interpret and explain engineering policies and procedures; read, understand, and correctly interpret plans, specifications, designs, and relevant engineering codes; and communicate clearly and concisely both orally and in writing, which includes using tact and discretion when dealing with the public, elected officials, and City staff.
- Prepare clear and concise technical and administrative reports including accurate tables, schedules, summaries, and other materials in narrative form; establish and maintain various data collection, record keeping, tracking, filing, and reporting systems; and maintain office and specialized files.
- Plan, organize, train, and manage the work of assigned staff; resolve grievances and complaints; and maintain an effective working relationship with fellow employees, the public, elected officials, and other departments and outside agencies.

Education and Experience:

Any combination of experience and education may be considered. A typical way to obtain the knowledge, skills, and abilities would be:

- Bachelor's degree in civil engineering or a closely related field.

- Four years of increasingly responsible experience in the area of civil engineering design, surveying, inspection, utilities, transportation, traffic, water quality, or engineering plan checking.
- Local government experience is desirable.

Licenses and Certifications:

- Possession of a valid Class C California Driver's License and ability to maintain a satisfactory driving record are required.
- Possession of a Civil Engineer Professional Engineer (P.E.) license issued by the State of California is required.

PHYSICAL DEMANDS:

- Ability to lift up to 15 pounds or more; sit, stand, squat, kneel, climb stairs, stoop, and walk for prolonged periods of time; and get from one location to another in the course of doing business.

WORK ENVIRONMENT:

- Work is performed in a standard office setting and outside. Employee will travel to different locations and may be exposed to inclement weather conditions, noise, vibration, dust, or potentially hazardous chemicals. Noise level in the work environment is usually moderate to high and the employee may be exposed to loud talking and frequent interruptions from telephones, City staff, and/or members of the public. The nature of the work also requires incumbents to drive motorized vehicles and work in heavy vehicle traffic conditions.

NOTE:

The duties, skills, and demands described here are representative of those that must be met to successfully perform the essential functions of the job. When appropriate, reasonable accommodations may be made to enable individuals with a disability to perform the essential duties, skills, and demands.
